

Gravity Wagon Auger

6" Universal Mount
Planter/Drill Fill
System

**Performance
and Value
you can
trust.**

Converts gravity wagons into fast and efficient planter/drill fill systems

- Two models available: 6" auger in 12' or 15' lengths with choice of 33" or 44" hopper. Comes with steel or bristle flighting.
- Set up is quick and easy. Simply install to the existing door guides on your gravity box/wagon.
- Universal mount - a single quick release mounting pin for fast attach/detach.
- Transfer hopper's swing-away design provides vast amount of auger positions and adjustment alternatives.
- The gravity wagon auger comes with a 4.5 cu. in. hydraulic motor with standard 12 volt solenoid control valve enables the auger to be operated electrically from discharge spout. Hydraulic motor requires a minimum of 8 gpm at 1400 psi (maximum 12 gpm).
- Standard telescopic discharge spout with convenient on/off switch provides efficient reach. Flexible discharge tube allows delivery exactly where you want it.
- Optional 3-section 14 1/2' telescoping discharge, spout with flex hose available.

**DO NOT OPERATE EQUIPMENT WITH
SAFETY DEVICES REMOVED!**
